

# ARCHER GOLD LUBRI-TAC

---

Archer Gold Lubri-Tac is a moly-fortified, lithium complex, heavy-duty extreme pressure grease that offers excellent protection during high-temperature and heavily loaded conditions. Its unique formulation is very adhesive and will not sling off under shock loading conditions. The dropping point exceeds 500°F, which ensures retention where high temperatures are experienced. Archer Gold Lubri-Tac provides excellent water resistance without affecting pumpability and is specially formulated to provide protection against rust and copper corrosion. Available as NLGI 2 and 0.

## FEATURES & BENEFITS

- Superior wear protection
- State-of-the-art lithium complex grease with 3% molybdenum disulfide for exceptional shock load carrying capability
- High dropping point
- Better adhesion in wet environments and resistance to water washout
- Improves sealing against dirt and water
- Designed to provide better pumpability in cold temperature applications

## STORAGE & HANDLING

- Always store tubes upright in a clean, cool, and dry place
- Store in a protected area with ambient temperatures between 32 and 86°F
- Keep container covered when not in use
- Avoid prolonged storage
- Depressurize and clean grease gun when leaving grease in the gun
- Always use clean equipment

# TYPICAL SPECIFICATION DATA

ARCHER GOLD LUBRI-TAC		
NLGI GRADE	2	0
Thickener Type	Lithium Complex	Lithium Complex
Texture	Smooth	Smooth
Color	Gray	Gray
Penetration 60 Strokes	265-295	355-385
Dropping Point (°F)	>500	>400
Rust Protection	Pass	Pass
Water Washout (% Loss)	<5	5 Max
Timken OK Load (lbs.)	55	50
4-Ball Ep Performance Weld Point (kgf)	400	315
4-Ball Wear Scar (mm)	<0.6	<0.6
Copper Corrosion	1B	1B
Molybdenum Disulfide (%)	3	3
Base Oil Viscosity @ 100°C (cSt)	22	22
Base Oil Viscosity @ 40°C (cSt)	320	320
Base Oil Viscosity Index	80	80
